

RISK ASSESSMENT

Site Location	TF2 9PB	Task/Activity	Activities Room	Risk Assessment No:	RA/RM/HS/21B
Completed By:	Helen Shaw	Reason for Risk Assessment	Covid 19 - Coronavirus	Date:	23/02/2022
Signed:		SWP Ref. No:	21B	Review Date:	23/05/2022
Persons at Risk	<input checked="" type="checkbox"/> All <input type="checkbox"/> Members Only				

Hazard Identification	Who might be harmed	Controls Required	Severity of Harm	Occurrence	Likelihood of	Risk Rating	Further Control Measures Necessary
<p>Spread of Covid19- SARSCoV-2</p> <p>Airborne transmission by droplets and particles containing the virus breathed in by humans.</p> <p>Touch transmission by humans touching virus contaminated surfaces.</p>	<p>All persons using the activities room.</p> <p>Members</p> <p>Those with underlying health conditions.</p> <p>Anyone who physically comes into contact with you.</p> <p>Non-vaccinated individuals.</p>	<p>Hand Hygiene</p> <ul style="list-style-type: none"> Gel sanitisers in place to be used by everyone entering the room. <p>Cleaning</p> <p>Frequently cleaning and disinfecting objects and surfaces that are touched regularly particularly in areas of high use but not limited to: door handles, dvd player, television, floor and any other objects that a member may have come into contact with.</p> <p>Use of the ozone sanitiser machine - to be used weekly when the room is not in use.</p>	4	x	2	= 8	<p>Members to be reminded on a regular basis to wash their hands for 20 seconds with water and soap and the importance of proper drying with disposable towels. Also reminded to catch coughs and sneezes in tissues – Follow Catch it, Bin it, Kill it and to avoid touching face, eyes, nose or mouth with unclean hands.</p> <p>Posters, leaflets and other materials are available for display.</p>

		<p><u>Social Distancing</u> Safe distance of 1 arms length to be maintained by people that are not in the same household whilst exercising. Only 12 members only allowed in the facility at any one time IF Space chairs well apart from members of a different household.</p> <p><u>Restrictions</u> Usage limited to no more than 8 members at any one time when exercising. All doors to be open during and after all activities have taken place.</p>					<p>Committee Officers to ensure that the necessary procedures are being followed.</p> <p>Committee Officers to undertake regular checks to ensure this is adhered to.</p> <p>Members to be reminded that wearing of gloves is not a substitute for good hand washing</p>

RISK ASSESSMENT ACTION PLAN

Further control measures necessary	Agreed actions:	Actionee:	Date Due:	Date Action Completed:

RISK ASSESSMENT GUIDANCE

Hazard Identification

When undertaking a risk assessment consider the following hazards (this list is not exhaustive and other hazards may be present)

Acid	Falling / flying objects	Other people
Adverse weather	Falls from height	Physiological Capabilities (Human Factors)
Asphyxiation / drowning	Ground collapse / failure	Pressure systems
Chemicals / harmful substances	Heat / fire / explosion	Psychological Capabilities (Human Factors)
Confined spaces	High / low temperature	Structural failure
Contact with moving parts / machinery	Human Behaviour	Underground / overhead services
Dust / fumes	Inadequate Lighting	Uneven ground
Electricity	Lone Working	Unsafe access / egress
Explosion	Machines / objects overturning	Use of power tools
Failure of lifting equipment	Manual handling	Vehicle movements
Failure of tools / equipment	Noise	Vibration exposure

Persons at Risk

All	Members	Young Persons	Contractors	Visitors	Member of Public
-----	---------	---------------	-------------	----------	------------------

RA - Form Guidance

(1) Hazard Identification	Put in all the potential hazards associated with the task (Consider hazard list above).
(2) Associated Risk(3) Current Controls	Put in the likely effects i.e. cuts, burns, broken limbs, damage to property.
(3) Current Controls	Put in the existing controls i.e. SWP, procedures, Guards, demarcation, PPE.
(4) Severity of Harm	Estimate the severity (Scale 1 to 5 see severity indicator).
(5) Likelihood of Occurrence	Estimate the likelihood (Scale 1 to 5 see likelihood indicator).
(6) Risk Rating	Multiply the severity of harm score with the likelihood of occurrence score.
(7) Further controls necessary	State if further controls are required to control / reduce the risk. Complete action plan

Severity

1	Minor injury no lost time
2	Minor Lost time Injury under 7 days
3	Serious lost time injury over 7 days
4	Major Injury (Specified Major under RIDDOR)
5	Fatality

Likelihood

1	Rare (may occur only in exceptional circumstances)
2	Unlikely (may occur sometime)
3	Possible (should occur at sometime)
4	Likely (event will probably occur in most circumstances)
5	Almost certain (event is expected to occur in most circumstances)

Risk rating

High 15 to 25	UNACCEPTABLE RISK - Stop the task or do not allow it to start until further controls have been implemented in order to reduce the risk as low as is reasonably practicable (a balance of cost and risk) and ideally to achieve a low risk rating.
Medium 7 to 14	RISK MAY BE UNACCEPTABLE - It may be acceptable to implement temporary control measures to achieve the required level of risk reduction until more permanent measures are in place.
Low 1 to 6	ACCEPTABLE RISK - Task may continue presuming controls are implemented and monitored. Where additional low or no cost control measures can be implemented, particularly where this encourages employee engagement, these should be considered.

Hierarchy of Control

Eliminate	Get rid of the hazard; replace it with something less hazardous.
Reduce	Reduce the level of risk by reducing the nature of the hazard, e.g. use small quantities, lower voltage etc
Isolate	Isolate the hazard from people, for example by guarding
Control	Control exposure to the hazard by controlling who has access or limiting exposure time
PPE	Personnel Protective Equipment
Discipline	Training and Supervision
